

# Well One News

## Dear Well One Users,

Coming soon, a new generation of digital health support - the Well One app is undergoing a fresh makeover to better enhance your overall experience. Watch out for the upgrade to version 4.2.

## The Well One app makes digital health engagement easier than ever!

The new-and-improved Well One is our **most accurate and engaging** version yet - now inclusive of **seven different areas to track your holistic health**, and even **more personalized goals**.

### New features include:

Personalized goal recommendations based on your behavior.

What's New message keeps you up to date with changes and new features!

Spotlight messages that highlight new announcements or information relevant to your Well One community.

When the upgrade happens, you may notice your health score changes slightly as the upgrade gives the most accurate health score to date.

Get started on your health and financial wellbeing journey!
